### NEW JERSEY'S PRESCRIPTION DRUG RETAIL PRICE REGISTRY

The [N.J. Prescription Drug Retail Price Registry](http://www.njdrugprices.nj.gov) is available to help consumers compare the retail prices charged by many pharmacies for the 150 most-frequently prescribed prescription drugs.

By comparing prices, consumers can see what a pharmacy is charging for a specific prescription drug without having to call or visit each pharmacy. Comparing the prices listed in this registry will help a consumer find the pharmacy in his or her area with the lowest retail price for a specific prescription drug.

### HOW TO USE NEW JERSEY'S PRESCRIPTION DRUG RETAIL PRICE REGISTRY

To use this registry, go to [www.NJConsumerAffairs.gov](http://www.NJConsumerAffairs.gov) and click on the New Jersey Prescription Drug Retail Price Registry icon. Once the medication and dosage is selected, consumers can put in their local zip code to check prices at area pharmacies.

The Prescription Drug Retail Price Registry will be updated weekly to provide consumers with current pricing information. Please note that prices may vary from day to day and that the prices shown on the Registry are not guaranteed.

The prices displayed in the Registry are compiled from the most recent claims submitted by licensed New Jersey pharmacies to the New Jersey Division of Medical Assistance and Health Services as their "usual and

customary" prices. If a pharmacy did not submit a claim for a particular drug and dosage during the reporting period, the Registry will not include data for that pharmacy/ drug/ dosage during the reporting period.

#### 150 most-frequently prescribed prescription drugs

Please note that there are in fact more than 150 entries in the Registry. This is due to two facts: 1) Each drug may be sold in different dosages (e.g., Liptor 10 mg. or Liptor 20 mg.), and 2) Each drug may be sold in a variety of methods of delivery (e.g., tablets, caplets, capsules, chewable tablets, patches, suppositories, syrups or liquids for syringes).

Rank	Medication
